

FHE Assignment Wheel

Figure 1

Every Family is different. Some families are small and some are large. I made this Family Home Evening Assignment Wheel to be used for families with young children or families that often feel like they live in the zoo!

The wheel may not match up exactly - but please know that this can be used for everyone. You may not need to have a conductor or offer a refreshment, etc. As the children get older you can use all the “assignments” and you can also double up or triple up wherever necessary!

After cutting out - laminate to preserve. Place the names of your family members in the outer ring of Fig 2. Punch out the black dot in both centers and then connect Fig 2 to the top of Fig 1 using a standard brad. Have Fun!!! Kerry G.
