

"We urge our young people to begin today to write and keep records of all the important things in their own lives... I promise you that if you will keep your journal and records, they will indeed be a source of great inspiration to your families, to your children, your grandchildren, and others on through the generations. Each of us is important to those who are near and dear to us and as our posterity read of our life's experiences, they, too, will come to know and love us.. And in that glorious day when our families are together in the eternities, we will already be acquainted.

~President Spencer W. Kimball
