THE LITTLE EXTRA

The difference between “ordinary” and “extraordinary” is that little “extra”. That will decide what kind of Seminary class we will have this year. Any ordinary monkey can do the basic parts of your calling. Do the extraordinary to magnify your calling. The following are things past class presidencies have done to make their classes exceptional:

- Be aware. Notice people in your class who may need special attention.
 - Walk with someone who is always alone.
 - Encourage someone who usually sleeps or leaves scriptures closed.
 - Find out why a particular student hasn't been in class for a while.
 - Write a note of appreciation to someone who would be lifted by it.
- Share your testimony when appropriate.
- Help others to be quiet and reverent during the lessons.
- Pray for class members.
- Bring a small gift for each class member at the end of a quarter.
- Notice any problems with tardiness or absences and encourage with a challenge or a treat to increase performance.
- Go as a group of class members to visit a student in the hospital.
- Notice if the classroom needs tidying or straightening before class and help the teacher.
- See if your teacher has a song in mind that would go with the day's lesson that can be played.
- Sit by someone who needs a friend.
- Do something special to recognize birthdays and summer birthdays.
- Smile and care.
- Remember Matthew 25:40
